A Message to our COPD Respiratory Clientele:

As we are all aware, the coronavirus disease (COVID-19) is a threat to all and it is impacting our city, state and world more and more as the days unfold. At COPD Respiratory Services, we are taking all precautionary measures to safeguard our employees and clients and are making any necessary modifications to our work environment and/or operations.

Here are the actions we are taking to help keep our clients and employees safe:

- COPD is following the CDC's suggested cleaning and disinfecting routine for all equipment and supplies coming in or out of the building.
- To reduce over crowding and exposure, we are implementing the following:
 - Our Respiratory Therapists will be seeing clients by **appointment only**.
 - All required deliveries and pick-ups will be made curb-side.
 - Any necessary supplies will be mailed or shipped via our resupply program.
- Only essential personnel will remain in the office however our doors will remain locked.
- All business travel for employees has been suspended until further notice.
- We are deep cleaning and disinfecting our business regularly, including all high-touch surfaces

COPD is following recommendations from the Centers for Disease Control and will continue to communicate any updates as we receive them.

We are committed to keeping our community healthy and hope we can all come together during this time.

- COPD Management
